## Mid-Range Industrial Printers

The PM43 and even more compact PM43c mid-range industrial printers deliver fast print speeds, drop-in deployment, advanced connectivity and proven reliability. Built to deliver maximum uptime, PM Series printers are available with either a tamper-proof color touchscreen in 10 languages, or a universal icon interface. This enables immediate notifications through the printer interface, reducing your workforce training and device support needs.

As one of the most connected industrial printers on the market, the PM Series feature Wi-Fi and Cisco® CCX certifications, with additional Bluetooth® connectivity. Every printer ships with Ethernet connectivity, as well as network protocol IPv6, ensuring long-term enterprise scalability.

As a third-generation industrial printer platform, rugged PM Series printers incorporate features that increase uptime and reduce maintenance costs. A strong, metal construction is perfect for harsh industrial environments. And with Precision Print, even the smallest barcodes and images can be printed with pinpoint accuracy – no frequent media adjustments necessary.

Each PM43, PM43c and PM23c printer has an integrated web interface that allows for easy setup, monitoring and configuration through devices like handheld computers, tablets or smartphones. Integrated device management and diagnostic capabilities, provided through the Honeywell SmartSystems™ Foundation and Wavelink Avalanche®, reduce downtime and simplify deployment.

With fast print speeds up to 12 ips, you'll gain a clear productivity advantage. But performance isn't about just speed; it's also about working smarter. The PM Series printers are intelligent, helping you to reduce labeling errors and increase process efficiencies. In-printer apps, developed with Honeywell C# for Printers, can directly control

other devices such as scanners, scales, keyboards and other peripherals – without the need for an attached computer.

With their user-selectable, all-in-one programming languages, PM Series printers fit into most IT infrastructures, deploying quickly into existing Honeywell or mixed printer environments. And with comprehensive command language support – including ZSim2, our fast, friendly and complete ZPL-II emulation – upgrading to the PM Series has never been simpler.

The PM Series printers are co-engineered and tested with Honeywell Media Products, ensuring optimized printhead performance when used with genuine Honeywell media.
